

Music Vision Statement

Intent

At Cotgrave Church of England Primary School, music is a powerful means of expression, connection, and worship. Our music curriculum inspires creativity, builds confidence, and nurtures a love of music in all its forms. We aim to help every child find their unique musical voice while fostering resilience and a sense of joy.

We believe that music enriches our lives and connects us to each other and to God. Through performance, composition, and appreciation, our children grow in confidence and flourish as individuals and as part of our school community.

Implementation

Children at Cotgrave engage in a rich and varied music curriculum that includes singing, playing instruments, listening to diverse genres, and composing. We use the Kapow programme to ensure progression and consistency across year groups. Specialist music teachers and regular performance opportunities—such as singing assemblies, productions—enhance the curriculum.

Every child learns to perform confidently, whether as part of a choir or through instrumental lessons, building skills that extend beyond the classroom.

Impact

By the end of their time at Cotgrave, children will have developed a lifelong love of music. They will leave with the confidence to express themselves creatively, the resilience to perform, and the ability to appreciate and understand music from different cultures and traditions.
